EXPERIENCE

Web Developer Intern : Unanimous Technologies Pvt. Ltd.

Jaipur(Rajasthan),India
May 2023 - July 2023

- Contributed in two end-to-end web development projects from inception to deployment
- Demonstrated strong problem-solving and coding skills throughout the projects
- Collaborated seamlessly with cross-functional teams including developers, designers, and project managers
- Delivered high-quality solutions aligning with project goals and requirements

ReactJS Intern : Celebal Technologies Pvt. Ltd.

Remote
May 2024 - July 2024

- Deepened expertise in ReactJS, focusing on state management, hooks, and component lifecycle.
- Developed a Spotify Clone with a dynamic UI.
- Created a To-Do App with real-time updates.
- Built a responsive E-Commerce Store with product listings and a cart.
- Major project: Full-stack Kanban task management app for visual workflow management.

PROJECTS :

-Chill-Fill =>

- Developed a Video Streaming Web Application: Built using React.js and Material-UI, creating a modern, responsive UI for video content.
- Implemented API Integration: Leveraged RapidAPI to dynamically fetch and display video data, ensuring up-to-date content for users.
- Enhanced User Interactivity : Enabled video addition, categorization, and comprehensive search functionality by video ID, term, or channel.

-AgrofyIndia =>

- Developed an Organic E-Commerce Website: Built using HTML, CSS, JavaScript, PHP, MySQL, jQuery, Bootstrap, and Ajax.
- Implemented Product Management Features: Enabled displaying, categorizing, and managing organic products with detailed information.
- Created an Admin Panel: Provided functionalities for managing sliders, products, categories, testimonials, and certificates with secure access.

Kanban =>

- Developed a Kanban Task Management Application using React.js, Firebase, MUI v5, and Zustand.
- Implemented features for creating boards, lists, and cards with task management, including drag-and-drop functionality.
- Created a responsive UI/UX for seamless task management across devices.
- Enabled user registration and login for personalized access to the Kanban board.
